

**SPEIFICATION**

|                      |                        |
|----------------------|------------------------|
| Frequency Range      | 87.5 - 108.0 Mhz       |
| Insertion Loss       | <0.1 - 0.2 db          |
| Return Loss          | ≥30 db                 |
| Distance Between CH  | 1.6Mhz                 |
| Isolation Between CH | ≥30 db                 |
| Impedance            | 50 ohm                 |
| Input Power          | max. 2500W per chanel  |
| Output Power         | max. 5000W             |
| Number Of The Cavity | 2 per filter           |
| Temperature Range    | -20 °c ...+55 °c       |
| Input Connector      | 7/8 EIA                |
| Output Connector     | 7/8 EIA                |
| Colour               | Black (darkish)        |
| Weigh                | 45 Kg                  |
| Dirmensions          | 125x40x40cm            |
| Materials            | Brass, Aluminium, PTFE |
